01246411882

CLAIMS

- A tile cutting attachment for cutting holes in tiles of a hard composition, comprising l. of a shaft (1) and a tip (2) for engaging the workpiece, the tip is provided with 6 cutting edges and each edge is provided with a clearance angle (c) approx $10^{0} \cdot 20^{0}$, sufficient to provide a cutting edge to cut the workpiece as the drill bit rotates, the tip should be provided with a point angle (p) of approx 90°.
- The point as claimed in claim 1 should be given a relief angle of approx 600 2.
- The point angle (p) and relief angle (r) as claimed in claim 1 and 2 should form a 3. central point on the head of the tip
- Secondary cutting edges as claimed in claim 1 should be provided with an overall 4. angle (s) of approx 30°
- A tile drill bit as claimed in claim 1 having an active diameter of (d) 5.
- The cutting tip as claimed in claim 1 is manufactured from tugsten carbide 6.
